

Important circular regarding the Pre-board Examination.

Dear Parents,

You are aware how important the Board Examinations are for you and your children. The future depends on how they fare in those examinations. Although the examinations do not decide the character or the caliber of the student, it is an important test of his or her learning ability and the results are indispensable for entry into a stream/college of one's choice.

On the other hand the situation of the pandemic has forced us to avail online classes from the very beginning of this year. The students who were serious about the online classes and exams have benefitted their best. Now the preboard examination for classes 10 and 12 are approaching and in this difficult situation of Covid 19, the preboard will take place online. Exam will be exactly as of their board exam.

Dear Parents, in this difficult situation you as Parents exercise the most important responsibility and the duty to ensure that the Examinations are carried out in a manner that they will truly indicate how the student is doing. Anything less than that or allowing the student to bypass the norms of fair examinations will directly harm the student's interest. You are therefore reminded of this all important task as a Parent and as Proxy Educator to ensure that examinations are carried out fairly, and under your personal supervision.

Once your role to ensure that the examinations have been conducted at your end using fair means, under your supervision, your new role begins to ensure that the corrections are properly done and the School is able to help the student to improve:

So after your child upload the answer scripts, the parent will seal the answer scripts in an unused envelope and reach the school gate within one hour. In case you stay very far and need more time please inform the principal (through school mail ID) for an extended time period.

This exercise is crucial for the teacher to find out: i. how well the student has answered; ii. How well s/he had worked his/her answers iii. Where s/he needs to be helped. iv. And what can be done to help the student. Along with the uploaded answers , the manual correction will also help us identify the status of our students in order to help him/her to perform well in the board exam. Kindly mention the following on the sealed envelope:

- 1. Student's Name**
- 2. Class & Sec**
- 3. Adm. No.**
- 4. Roll No.**
- 5. Subject**
- 6. Date of Examination**

The direct role of invigilation and delivering the answer scripts to the school is to be taken very seriously by the parents of class 10 & 12. The students are requested to use the register sheets for the exam. (Please contact the class teacher for any further query.) Exam will be considered valid only when the answer scripts and the uploaded sheets reach the school.

Looking forward to your valuable cooperation

Principal.
